Ömürden Özacar, Turkey Sales Manager, KRONE, Turkey

logitrans fair, held in Turkey and sectoral trade fairs creates impact both nationwide and on global scale. Even if we were going through such a period, we decided to attend this fair without hesitation. Krone's all sales staff have hosted guests from dozens of countries from 3 different continents for 3 days. We met our carrier friends from all over Turkey. By participated in the fair we showed that we are the Turkish transporter's companions, and then we will continue to be with the Turkish carriers.

Müge Karahan, Marketing & Sales Development Manager, Fevzi Gandur Lojistik, Turkey

As every year we have had a very fruitful process at the logitrans fair, which brings together the whole sectors and brings together many domestic and foreign participants with the sector's pioneers. We are pleased to participate in this most experienced specialized exhibition in order to make fruitful interviews with our foreign and local customers, suppliers and the companies we aim to work with.

We are very satisfied with regular participation, high participation and interest. We are proud to be involved in the 2018 logitrans fair which is beneficial for us.

Devrim Koray, Board member, Greenlog, Turkey

We have seen benefits in terms of relationship development and awareness of the sector. It was an exhibition that responded to our expectations to a great extent. It was a very successful fair in terms of organization. We think we will be taking part in this fair again next year.

Eser Ergin-Ünlütürk, Business Development Manager, Austrian Consulate General-Commercial Section Advantage Austria, Austria

We as Advantage Austria are an NGO who represents and supports Austrian companies abroad. We attend logitrans for the 8th consecutive years in a row and we notice a decreasing interest from our participants. The reason is that it is not beneficial anymore for some of them. They know the usual attendees from the logistics sector already. We would therefore recommend to the organizers that B-2-B meetings are part of the fair/exhibition. The enterprises and the producers of all sectors of Turkey could be invited in order to meet the logistics participants. That would strongly promote the reason to participate at logitrans and of course would be very beneficial for the companies.

Kemal Kenan, Sales Manager TR, WAG Payment Solutions, Turkey

It is good opportunity to meet existing and potential clients.

Pulat Erginbaş, Company Manager, Europe Intermodal, Turkey
